

Instrument A — AGRISENSO Plus Borrowers

AGRISENSO Plus Baseline Study — item-by-item enumerator reference

How to use this. Find the item code on screen, find it here. Question text, options, routing and limits are taken directly from the live questionnaire, so this sheet always matches what the app does.

required — the page will not advance until it is answered. **filled by the app** — do not type over it.

The shaded line under a question gives its routing and any limits the app enforces.

Three rules everywhere. Read the question as written; never suggest an answer; blank is valid for everything except the required items — never enter a filler to move on.

Questionnaire Administration and Quality-Control Information

Questionnaire Administration and Quality-Control Information

REQUIRED

FILLED BY THE APP

Borrower / Sampling Frame ID

Enumerator Name / ID

Supervisor Name / ID

Date of Interview

Interview Start Time

Interview End Time

Language Primarily Used:
Filipino · English · Local language/dialect (specify) · Other

Interview Mode:
Face-to-face · Other approved mode (specify)

What it measures. Identifies the interview and links it to the sample. None of it is read aloud.

How to ask it. Complete before greeting the respondent, while you still have signal.

Watch for. The Sampling Frame ID is the only link between this interview and the approved list. Copy it exactly, including dashes and leading zeros. If you cannot find it, leave it blank and call your supervisor rather than inventing one. Use the same spelling of your own name every time.

Introduction and Informed Consent

Consent to Participate REQUIRED

Do you voluntarily agree to participate in this survey?

Yes – Proceed · No – End interview and thank respondent

What it measures. The legal basis for the interview. Everything that follows depends on it.

How to ask it. Read the consent script in full, word for word, inserting your own name where indicated. Then ask the question.

Watch for. No ends the interview immediately. Thank the respondent, submit the record so the refusal is counted in the sample disposition, and do not attempt to persuade them.

Consent for Possible Validation / Back-check REQUIRED

A “No” response does not affect participation in the present interview.

May the research team contact you again, if necessary, for a brief validation or back-check related to this survey?

Yes · No

What it measures. Permission for a later validation call or back-check.

How to ask it. Ask plainly, after consent to participate.

Watch for. Say clearly that No here does not affect the present interview. Respondents often assume refusing will end the interview.

Consent Confirmation REQUIRED

Enumerator Attestation

I certify that I read/explained the informed consent and that the respondent voluntarily agreed to participate.

Respondent Signature (optional)

What it measures. Your certification that consent was properly obtained.

How to ask it. You tick the attestation, not the respondent. Offer the signature line; never insist.

Watch for. Only tick it if you genuinely read or explained the consent. A respondent who agreed verbally but will not sign is still a valid interview.

Borrower Identification and Eligibility Screening

A1 Location of Interview **REQUIRED**

Region

National Capital Region (NCR) · Cordillera Administrative Region (CAR) · Region I – Ilocos Region · Region II – Cagayan Valley · Region III – Central Luzon · Region IV-A – CALABARZON · MIMAROPA Region · Region V – Bicol Region · Region VI – Western Visayas · Region VII – Central Visayas · Region VIII – Eastern Visayas · Region IX – Zamboanga Peninsula · Region X – Northern Mindanao · Region XI – Davao Region · Region XII – SOCCSKSARGEN · Region XIII – Caraga · Negros Island Region (NIR) · Bangsamoro Autonomous Region in Muslim Mindanao (BARMM)

Province

Municipality/City

Barangay

Island Group:

Luzon · Visayas · Mindanao

What it measures. Where the interview took place.

How to ask it. Pick the region; province, municipality and barangay follow from it where there is signal.

Watch for. Changing the region clears the three fields below it — that is intended. With no signal they stay text boxes; type them exactly as printed on the sampling frame. Island Group fills itself.

A2 Borrower Type **REQUIRED**

Based on the approved borrower sampling frame, is the AGRISENSO Plus borrower:

Individual borrower · Organizational / enterprise borrower

What it measures. Whether this is an individual or an organisational borrower. Controls the whole interview.

How to ask it. Read it off the approved sampling frame. Do not ask the respondent to classify themselves.

Watch for. The single most consequential answer in the instrument. Individual opens the household questions; organisational opens the enterprise questions and skips the household block entirely. Correcting it later clears the answers that no longer apply.

A3 Borrower Segment

Confirm the borrower segment against the approved sampling frame.

Small Farmer / Fisherfolk (SFF) · Agrarian Reform Beneficiary (ARB) · Farmers and Fisherfolk Cooperative / Association (FFCA) · Agrarian Reform Beneficiary Organization (ARBO) · Barangay Micro Business Enterprise (BMBE) · Small or Medium Enterprise (SME) · Other approved Program segment (specify)

What it measures. The borrower segment under the Program.

How to ask it. Confirm against the approved sampling frame.

Watch for. Must be consistent with borrower type: a cooperative or ARBO is not an individual borrower. If the frame and what you see disagree, record the frame and flag it to your supervisor.

A4 Name of Borrower / Borrowing Entity

Enumerator: Confirm against the approved borrower sampling frame or authorized LANDBANK/Program record.

Name of borrower

Only when A2 Borrower Type = Individual borrower

Name of borrowing organization / enterprise

Only when A2 Borrower Type = Organizational / enterprise borrower

What it measures. The borrower's name as it appears on the Program record.

How to ask it. Only the field matching the borrower type appears.

Watch for. Confirm against the frame. Do not correct a spelling on the respondent's say-so — note it and tell your supervisor.

A5 AGRISENSO Plus Loan Agreement Verification **REQUIRED**

If No or Unable to Verify → Do not proceed with substantive questions. Refer to the field supervisor for validation.

Does the approved borrower list or other authorized Program record confirm that this individual or organization has an existing AGRISENSO Plus Program loan agreement with LANDBANK?

Yes – Continue · No · Unable to verify

What it measures. Whether an AGRISENSO Plus loan agreement exists on the Program record. A hard gate.

How to ask it. This is about the record, not the respondent's memory.

Watch for. Yes continues. No stops the interview — this is not an AGRISENSO Plus borrower. Unable to verify stops it and refers the case to the supervisor. Do not ask substantive questions after either.

A6 Status of Loan Release **REQUIRED**

Enumerator Note: This item is important for routing. Questions concerning actual loan utilization and experience after receiving financing apply only where loan proceeds have already been released.

Under the existing AGRISENSO Plus loan agreement, has any portion of the approved loan already been released/disbursed?

Yes, fully released · Yes, partially released · No, not yet released · Respondent does not know / requires verification

What it measures. Whether loan proceeds have been released. Decides whether the utilisation section is asked.

How to ask it. Ask how much of the approved loan has actually been released or disbursed.

Watch for. 'Not yet released' skips the whole loan-utilisation section, correctly, because there are no proceeds to discuss. Do not answer this on the respondent's behalf.

A7 Individual Borrower Eligibility REQUIRED

Is the respondent the individual named as the borrower under the AGRISENSO Plus loan agreement?

Yes · No

Only when A2 Borrower Type = Individual borrower

Is the respondent at least 18 years old?

Yes · No

Only when A2 Borrower Type = Individual borrower

Is the respondent directly involved in decisions concerning the farm, fishery, livelihood, or agriculture-related enterprise covered by the loan?

Yes · No

Only when A2 Borrower Type = Individual borrower

What it measures. Individual borrower eligibility: named borrower, adult, involved in decisions. All three are gates.

How to ask it. Ask each directly. Individual branch only.

Watch for. Not the named borrower refers to the supervisor — a spouse or child answering for the borrower is not the borrower. Under 18 ends the interview. Not involved in decisions refers to the supervisor; someone who only helps with labour is not involved in decisions.

A8 Organizational / Enterprise Borrower Eligibility REQUIRED

If No → Identify an appropriate authorized/knowledgeable representative before proceeding.

What is the respondent's role in the organization or enterprise?

Owner / Proprietor · Chairperson / President · Board Member / Director · Manager · Treasurer / Finance Officer · Other Officer · Authorized Representative · Other (specify)

Only when A2 Borrower Type = Organizational / enterprise borrower

Is the respondent authorized or sufficiently knowledgeable to answer questions concerning: - the AGRISENSO Plus loan; - the organization's or enterprise's operations; - use of loan proceeds; - financing and repayment; and - relevant production or enterprise information?

Yes – Continue · No

Only when A2 Borrower Type = Organizational / enterprise borrower

What it measures. Organisational eligibility: the respondent's role, and whether they can speak for the organisation.

How to ask it. Read the full list in the authorisation question: the loan, operations, use of proceeds, finances.

Watch for. Record the actual role, not the most senior-sounding one. 'No' on authorisation stops the interview — ask for an authorised officer or book a callback. Do not proceed with a willing but uninformed person.

A9 Loan Agreement Reference Information

Enumerator Note: Where confidentiality protocols require separation of identifiable loan-account information from the survey dataset, record the reference only in the approved respondent tracking or validation file.

Where available from the borrower list or respondent records: LANDBANK Lending Center / Branch: Loan Agreement / Account Reference No.:

Not collected in survey instrument / maintained separately for validation

What it measures. Loan reference information, deliberately kept out of the survey dataset.

How to ask it. Select the single option.

Watch for. Identifiable loan-account numbers stay in the protected tracking file, not here.

A10 Final Eligibility Determination FILLED BY THE APP

What it measures. Final eligibility, computed from the screening answers above.

How to ask it. Do not ask and do not click. Read it to confirm the screening was answered consistently.

Watch for. If it reads 'Not yet determined', a screening answer above is missing. Scroll up rather than looking for somewhere to type.

Borrower and Household / Organization Profile

B1 Respondent Sex

Respondent Sex

Male · Female · Prefer not to answer

Only when A2 Borrower Type = Individual borrower

Record the sex of the representative only for field documentation. Do not interpret this as the sex classification of the borrowing organization.

Male · Female · Prefer not to answer

Only when A2 Borrower Type = Organizational / enterprise borrower

What it measures. Respondent sex, for disaggregation.

How to ask it. Observe where obvious; ask if unsure.

Watch for. For an organisational respondent this records the representative only. It is not the sex classification of the organisation — say so if the respondent looks puzzled.

B2 Age REQUIRED

Age in completed years

Only when A2 Borrower Type = Individual borrower; between 18 and 120; whole number; in years

Age Group:

18–35 · 36–50 · 51–65 · 66 and above

Only when A2 Borrower Type = Individual borrower

What it measures. Age, and the age band derived from it.

How to ask it. Ask for completed years. Help the respondent work it from a birth year if unsure.

Watch for. Must be 18 or over; the app rejects less. Never leave a stray 0. The age group below fills itself.

B3 Highest Educational Attainment

Highest Educational Attainment

No formal schooling · Elementary level · Elementary graduate · Junior High School / High School level · Junior High School / High School graduate · Senior High School level / graduate · Technical / Vocational · College level · College graduate · Postgraduate · Other · Prefer not to answer

Only when A2 Borrower Type = Individual borrower

What it measures. Educational attainment, a standard correlate of financial capability.

How to ask it. Read the options. Do not infer from appearance or speech.

Watch for. 'Level' means attended but did not finish; 'graduate' means completed. Do not merge them.

B4 Civil Status

Civil Status

Single · Married · Living with partner · Widowed · Separated · Other · Prefer not to answer

Only when A2 Borrower Type = Individual borrower

What it measures. Civil status.

How to ask it. Read the options.

Watch for. 'Living with partner' is distinct from 'Married'. Record what the respondent says, not what is on paper.

B5 Household Size

Including yourself, how many persons usually live in your household? Total household members (persons)

Only when A2 Borrower Type = Individual borrower; between 1 and 50; whole number; in persons

What it measures. Household size, the denominator for the two questions that follow.

How to ask it. 'Including yourself, how many persons usually live in your household?'

Watch for. Minimum 1, because the respondent counts. 'Usually live' means regular members: include a student who comes home, exclude a long-term overseas worker unless the household treats them as resident.

B6 Economically Active Household Members

How many household members aged 18 years or older currently earn income or are actively engaged in farming, fishing, employment, business, or another livelihood? (persons)

Only when A2 Borrower Type = Individual borrower; between 0 and 50; whole number; in persons; cannot exceed the answer above

What it measures. How many household members earn, a measure of dependency.

How to ask it. Aged 18 or older, earning income or actively engaged in a livelihood.

Watch for. Cannot exceed household size; the app warns if it does. Zero is a legitimate answer and is not the same as leaving it blank.

B7 Household Dependents

How many household members are primarily dependent on other household members for financial support? (persons)

Only when A2 Borrower Type = Individual borrower; between 0 and 50; whole number; in persons; cannot exceed the answer above

What it measures. How many household members depend on others.

How to ask it. Members primarily dependent on other members for financial support.

Watch for. Cannot exceed household size. This and the previous item need not sum to household size — some members are neither.

B8 Estimated Average Monthly Household Income

Thinking about all sources of income received by your household, what is your household's estimated average monthly income? Estimated amount: PHP

Only when A2 Borrower Type = Individual borrower; Answering this clears the other answers in this item; 0 or more; in PHP per month

Estimated Average Monthly Household Income

Unable to estimate exact amount · Prefer not to provide exact amount

Only when A2 Borrower Type = Individual borrower; Answering this clears the other answers in this item

If exact amount cannot be provided:

Below PHP 10,000 · PHP 10,000–19,999 · PHP 20,000–39,999 · PHP 40,000–59,999 · PHP 60,000–99,999 · PHP 100,000 and above · Do not know · Prefer not to answer

Only when A2 Borrower Type = Individual borrower; Appears once B8 Estimated Average Monthly Household Inc is answered; Answering this clears the other answers in this item

What it measures. Household income, the main welfare measure in the profile.

How to ask it. Ask for the exact average monthly amount first, across all sources and the whole household. Only if that fails, offer the reason, then the bracket.

Watch for. The most refused question in the instrument. Ask it matter-of-factly and move on. Distinguish 'unable to estimate' from 'prefers not to'. If the respondent refuses outright, do not push for a bracket.

B9 Primary Household Livelihood

What is the main source of livelihood or income of your household?

Crop farming · Capture fisheries · Aquaculture · Livestock raising · Poultry raising · Agricultural processing · Agricultural trading / marketing · Agricultural wage labor · Non-agricultural employment · Non-agricultural business · Remittances · Pension / retirement income · Other

Only when A2 Borrower Type = Individual borrower

What it measures. The household's main income source, which may differ from the farm enterprise.

How to ask it. Ask for the main source for the household as a whole.

Watch for. A household can farm while its largest income is a pension or remittances. Record what they say.

B10 Indigenous Peoples Identification

Do you identify as a member of an Indigenous Cultural Community / Indigenous Peoples group?

Yes · No · Prefer not to answer

Only when A2 Borrower Type = Individual borrower

Willing to specify IP Group / Community

Only when A2 Borrower Type = Individual borrower; Only when B10 Indigenous Peoples Identification = Yes

What it measures. Indigenous Peoples identification, for disaggregation.

How to ask it. Read as written. This is self-identification.

Watch for. Never infer it from language, place or appearance. The follow-up appears only after Yes and stays optional.

B11 Disability Status

Do you identify as a person with disability?

Yes · No · Prefer not to answer

Only when A2 Borrower Type = Individual borrower

What it measures. Disability status, for disaggregation.

How to ask it. Self-identification again.

Watch for. Do not infer from what you observe.

B12 Mobile Phone Access

Do you have regular access to a mobile phone used for communication or financial transactions?

Yes · No

Only when A2 Borrower Type = Individual borrower

Is the phone:

Own phone · Shared / household phone

Only when A2 Borrower Type = Individual borrower; Only when B12 Mobile Phone Access = Yes

What it measures. Mobile phone access, a precondition for digital financial services.

How to ask it. Ask about regular access for communication or financial transactions.

Watch for. Access, not ownership. The follow-up separates an own phone from a shared household phone.

B13 Internet / Mobile Data Access

How regularly do you or the organization/enterprise have access to the internet or mobile data?

Regularly · Occasionally · Rarely · No access

What it measures. Internet or mobile data access.

How to ask it. Read all four options.

Watch for. Asked of both individual and organisational respondents. 'Rarely' and 'No access' are different answers.

Farm, Fishery, and Enterprise Profile

C1 Current Agricultural / Enterprise Activities

Which activities are you or your organization currently engaged in? Select all that apply.

Crop production · Capture fisheries · Aquaculture · Livestock · Poultry · Agricultural processing · Agricultural trading / aggregation · Input supply · Storage / warehousing · Marketing / retail · Transport / logistics · Other agriculture-related activity

What it measures. The activities the respondent is engaged in. This item controls the whole section.

How to ask it. Read every option before accepting an answer. Select all that apply.

Watch for. The most consequential item in Section C. Production questions appear only for crop, fisheries, aquaculture, livestock or poultry. A trader answers 18 questions here; a mixed farmer answers 52. Every careless extra tick opens another production block.

C2 Principal Commodity / Enterprise Activity

Which of the activities you selected is your principal activity?

Principal commodity/product

What it measures. The principal activity and commodity, which later questions refer back to.

How to ask it. The dropdown offers only what was ticked above. Ask which is the main activity, not the first mentioned.

Watch for. Be specific on the commodity: 'Palay (rice)', not 'farming'. It carries forward to the production question.

C3 Years in Operation

For how many years have you or the organization/enterprise been engaged in this principal activity? (years)

Answering this clears the other answers in this item; between 0 and 100; in years

Years in Operation

Less than one year

Answering this clears the other answers in this item

What it measures. Experience in the principal activity.

How to ask it. Years engaged in this activity.

Watch for. For under a year, leave the number blank and tick 'Less than one year' instead. The two are alternatives — answering one clears the other.

C4 Farm / Production Area

Total area used for the principal activity

Only for production activities ticked in C1; Answering this clears the other answers in this item; 0 or more

Unit (applies to both areas above)

Hectares · Square meters · Other

Only for production activities ticked in C1; Answering this clears the other answers in this item

Area actually cultivated / utilised during the most recent cycle

Only for production activities ticked in C1; Answering this clears the other answers in this item; 0 or more; cannot exceed the answer above

No land or production area applies to this activity

Not applicable

Only for production activities ticked in C1; Answering this clears the other answers in this item

What it measures. Land or production area, total and actually used.

How to ask it. Numbers only. Choose the unit once; it applies to both areas.

Watch for. Cultivated area cannot exceed total area; the app warns. The difference is fallow or idle land. If no land applies to this activity, tick 'Not applicable' — it clears the area fields.

C5 Land Tenure / Access Arrangement

Ask where applicable. Select all that apply.

Owned · Agrarian Reform Beneficiary / awarded land · Rented / leased · Tenant / share arrangement · Shared / communal use · Borrowed / permitted use without rent · Other · Not applicable

Only for production activities ticked in C1

What it measures. How land is held or accessed.

How to ask it. Select all that apply.

Watch for. Several can be true at once: owned plus rented is common.

C6 Production Scale

Use commodity-appropriate units.

Rows: Crops · Fisheries / Aquaculture · Livestock · Poultry · Other

Columns: Activity · Area / Number · Unit / Classification

Only for production activities ticked in C1

What it measures. Scale of production, in commodity-appropriate units.

How to ask it. Fill only the rows matching the reported activities.

Watch for. Leave irrelevant rows empty rather than writing N/A in them.

C7 Production During Most Recent Completed Cycle

Commodity/Product

Only for production activities ticked in C1

Total production volume

Only for production activities ticked in C1; Answering this clears the other answers in this item; 0 or more

Unit:

Kilograms · Metric tons · Cavans / sacks · Pieces · Heads / birds · Liters · Other

Only for production activities ticked in C1

Where applicable Estimated yield per hectare

Only for production activities ticked in C1; 0 or more

Unit

Appears once C7 Production During Most Recent Completed is answered; Only for production activities ticked in C1

Production During Most Recent Completed Cycle

Unable to estimate · Not applicable

Only for production activities ticked in C1; Answering this clears the other answers in this item

What it measures. Output in the most recent completed cycle.

How to ask it. Commodity carries forward; edit only if this cycle differed. Record volume and match the unit to it.

Watch for. Cavans and kilograms are not interchangeable — record the unit the respondent actually used. Yield per hectare applies only where it is meaningful; skip it for livestock, poultry and enterprises.

C8 Number of Production Cycles

During the past 12 months, how many production cycles or cropping seasons did you complete for the principal commodity? (cycle(s))

Only for production activities ticked in C1; Answering this clears the other answers in this item; between 0 and 24; in cycles

Number of Production Cycles

Continuous production · Not applicable

Only for production activities ticked in C1; Answering this clears the other answers in this item

What it measures. Production intensity over the year.

How to ask it. Completed cycles in the past 12 months.

Watch for. For continuous operations leave the number blank and tick 'Continuous production'. Livestock and poultry are often continuous.

C9 Irrigation / Water Source

Ask where applicable. What is the principal water or irrigation source?

Irrigation system · Pump / groundwater · Rainfed · River / stream / surface water · Farm pond / reservoir · Other · Not applicable

Only for production activities ticked in C1

What it measures. Water source, a key production constraint.

How to ask it. Ask for the principal source only.

Watch for. Shown only for crop production and aquaculture.

C10 Mechanization / Equipment

During the most recent cycle or year, did you use machinery or mechanized equipment?

Yes · No · Not applicable

Only for production activities ticked in C1

Select all applicable:

Land preparation · Planting · Irrigation · Harvesting · Post-harvest · Processing · Fishing / aquaculture equipment · Livestock / poultry equipment · Transport / hauling · Other

Only when C10 Mechanization / Equipment = Yes; Only for production activities ticked in C1

Main mode of access:

Owned · Rented · Borrowed / shared · Cooperative / association-provided · Government-supported · Other

Only when C10 Mechanization / Equipment = Yes; Only for production activities ticked in C1

What it measures. Mechanisation and how equipment is obtained.

How to ask it. Ask whether machinery was used this cycle; the follow-ups open on Yes.

Watch for. Mode of access is the main one. Rented and borrowed are different arrangements.

C11 Major Production Inputs

During the most recent production cycle, which major inputs did you use?

Seeds / planting materials · Fertilizer · Pesticides / crop protection · Feeds · Fingerlings / fry · Breeding stock / animals · Veterinary / animal-health inputs · Fuel · Hired labor · Packaging materials · Other · Not applicable

Only for production activities ticked in C1

What it measures. Inputs used, an indicator of intensification.

How to ask it. Select all that apply.

C12 Extension / Technical Support

During the past 12 months, did you or the organization receive agricultural, fisheries, enterprise, or technical extension support?

Yes · No

Select all applicable:

Production technology · Fisheries / aquaculture support · Livestock / poultry support · Mechanization · Post-harvest / processing · Marketing / market linkage · Enterprise development · Digital / technology-related support · Other

Only when C12 Extension / Technical Support = Yes

Provider:

DA / attached agency · LGU · Cooperative / association · LANDBANK / financial institution · Private sector · NGO / development partner · Other

What it measures. Extension and technical support received.

How to ask it. Past 12 months, any agricultural, fisheries, enterprise or technical support.

Watch for. More than one provider is common; the provider question takes several answers.

C13 Production / Operating Cost

Approximately how much did you or your organization spend on production or operating costs during the most recent completed cycle/period? Estimated total: PHP

Answering this clears the other answers in this item; 0 or more; in PHP

Production / Operating Cost

Unable to provide exact amount · Prefer not to answer

Answering this clears the other answers in this item

If exact amount cannot be provided:

Below PHP 10,000 · PHP 10,000–24,999 · PHP 25,000–49,999 · PHP 50,000–99,999 · PHP 100,000–249,999 · PHP 250,000–499,999 · PHP 500,000 and above · Cannot estimate

Appears once C13 Production / Operating Cost is answered; Answering this clears the other answers in this item

What it measures. Production or operating cost for the reference cycle.

How to ask it. Ask for the exact peso amount first. Prompt for the components — seeds, fertiliser, labour, fuel — if the respondent hesitates. Only if that fails, offer the reason, then the bracket.

Watch for. If you tap a fallback by mistake, the amount box stays open and answering it clears the fallback.

C14 Gross Sales / Revenue

Approximately how much in gross sales or revenue did you or the organization earn from the principal activity during the same reference period, before expenses? Estimated gross sales/revenue: PHP

Answering this clears the other answers in this item; 0 or more; in PHP

Gross Sales / Revenue

Unable to provide exact amount · Prefer not to answer

Answering this clears the other answers in this item

If exact amount cannot be provided:

Below PHP 10,000 · PHP 10,000–24,999 · PHP 25,000–49,999 · PHP 50,000–99,999 · PHP 100,000–249,999 · PHP 250,000–499,999 · PHP 500,000 and above · Cannot estimate

Appears once C14 Gross Sales / Revenue is answered; Answering this clears the other answers in this item

What it measures. Gross sales or revenue for the same period, before expenses.

How to ask it. Ask for the exact amount first, same reference period as the cost.

Watch for. Say 'before expenses' clearly. Respondents frequently give a net figure here, which makes the three money questions inconsistent.

C15 Estimated Net Income / Profit

After deducting production or operating expenses, approximately how much was the net income or profit during the same reference period? Estimated net income/profit: PHP

Answering this clears the other answers in this item; in PHP

Estimated Net Income / Profit

Break-even · Net loss · Unable to estimate · Prefer not to answer

Answering this clears the other answers in this item

What it measures. Net income or profit for the same period.

How to ask it. After deducting production or operating expenses.

Watch for. The field accepts a negative number. Record a loss as a negative figure, never as 0 — zero reads as break-even, which is a different finding. Sanity-check it against the cost and sales figures above.

C16 Record Keeping

Do you or the organization maintain records of income, sales, and expenses?

Yes, regularly · Yes, occasionally · No

Record Keeping — select all that apply

Notebook / ledger · Receipts / invoices · Spreadsheet / computer records · Mobile / digital records · Formal bookkeeping/accounting system · Other

Only when C16 Record Keeping = Yes, regularly or Yes, occasionally

What it measures. Record-keeping practice.

How to ask it. Ask whether records are kept, then how.

Watch for. Several methods can be true at once. Should be consistent with the record-keeping practice question in the financial capability section.

C17 Output Disposition

During the most recent completed production cycle, approximately what percentage of output was:

Rows: Sold · Consumed by household / members · Retained as seed/input/feed · Given away / other use · Lost / spoiled / wasted · Total

Columns: Use · Approximate %

Only for production activities ticked in C1

Output Disposition

Unable to estimate · Not applicable

Only for production activities ticked in C1

What it measures. Where output went, as percentages.

How to ask it. Read the five uses. Enter a percentage for each.

Watch for. The Total is computed for you and should reach 100. Enter 0 for a category with no output — leaving it blank is not the same as zero.

C18 Production / Post-Harvest Losses

Did you experience production or post-harvest losses during the reference period?

Yes · No · Not applicable

Only for production activities ticked in C1

Approximate proportion lost (%)

Only when C18 Production / Post-Harvest Losses = Yes; Only for production activities ticked in C1; between 0 and 100; in %

Main reason

Only when C18 Production / Post-Harvest Losses = Yes; Only for production activities ticked in C1

What it measures. Production and post-harvest losses.

How to ask it. Ask whether losses occurred; the follow-ups open on Yes.

Watch for. Record the proportion lost as a percentage and the main reason in the respondent's own words.

C19 Main Buyers / Market Outlets

Select all that apply.

Local trader / consolidator · Cooperative / association · Wholesaler · Processor · Institutional buyer · Retailer · Direct-to-consumer · Government-supported market · Export market · Online / digital selling platform · Other

What it measures. Where output is sold.

How to ask it. Select all that apply.

C20 Value-Chain Participation

At which stages are you or the organization involved?

Input supply · Production · Aggregation / consolidation · Storage · Processing · Trading · Marketing · Retail · Transport / logistics · Other

What it measures. Which value-chain stages the respondent operates in.

How to ask it. Select all that apply.

Watch for. Most smallholders are production only. Do not over-tick: involvement means they actually do that stage.

C21 Major Shocks

During the past 12 months, did you or the enterprise experience any of the following?

Typhoon / severe storm · Flood · Drought / insufficient water · Extreme heat · Pest / disease outbreak · Livestock / poultry disease or mortality · Fishery / aquaculture losses · Significant increase in input prices · Significant decline in selling prices · Difficulty accessing markets · Damage to equipment/facilities · Other · None

Which shock had the greatest effect?

Typhoon / severe storm · Flood · Drought / insufficient water · Extreme heat · Pest / disease outbreak · Livestock / poultry disease or mortality · Fishery / aquaculture losses · Significant increase in input prices · Significant decline in selling prices · Difficulty accessing markets · Damage to equipment/facilities · Other

Only when C21 Major Shocks includes a listed answer

Main effect of the most significant shock

Reduced production · Increased costs · Reduced sales/revenue · Loss of assets · Difficulty meeting loan obligations · Need for additional financing · Temporary interruption of operations · Other

Appears once C21 Major Shocks is answered

What it measures. Shocks experienced, which one hurt most, and its effect.

How to ask it. Read every option. Select all that apply, then ask which had the greatest effect.

Watch for. 'None' clears the other ticks automatically. The greatest-effect question offers only what was ticked, so answer the first part properly.

C22 Selected Risk-Management Practices

Do you currently use any of the following?

Crop / enterprise diversification · Adjusted planting/production schedule · Water conservation / management · Climate-resilient varieties / breeds · Protective structures/facilities · Improved drainage · Savings / emergency fund · Insurance · Other · None

What it measures. Risk-management practices currently used.

How to ask it. Select all that apply.

Watch for. 'None' clears the others.

C23 Agricultural / Enterprise Insurance

Do you currently have insurance covering the farm, fishery, livestock, poultry, equipment, or enterprise?

Yes · No

Only for production activities ticked in C1

Type — select all that apply

Crop · Livestock · Fisheries / aquaculture · Property / equipment · Other

Only when C23 Agricultural / Enterprise Insurance = Yes; Only for production activities ticked in C1

Provider — select all that apply

Philippine Crop Insurance Corporation · Private insurer · Cooperative / mutual arrangement · Other · Do not know

Only when C23 Agricultural / Enterprise Insurance = Yes; Only for production activities ticked in C1

Have you ever filed a claim?

Yes · No

Only when C23 Agricultural / Enterprise Insurance = Yes; Only for production activities ticked in C1

Agricultural / Enterprise Insurance

Fully paid · Partially paid · Pending · Denied · Other

Only when C23 Agricultural / Enterprise Insurance = Yes; Only for production activities ticked in C1

What it measures. Insurance cover, type, provider and claims experience.

How to ask it. Ask whether any cover exists; the follow-ups open on Yes.

Watch for. 'Do not know' is a valid answer for the provider. Claim outcome appears only if a claim was filed.

AGRISENSO Plus Awareness and Access Experience

D1 Source of Program Information

How did you first learn about AGRISENSO Plus?

LANDBANK / Lending Center personnel · ACPC / DA personnel · Cooperative / association · LGU / agriculture office · Barangay officials · Orientation / meeting · Social media / internet · Radio / television · Printed materials · Fellow farmer/fisherfolk/entrepreneur · Family/friend · Other

What it measures. How the borrower first learned of the programme — a communications finding.

How to ask it. Ask for the first source, not every source they have since encountered.

D2 Understanding of AGRISENSO Plus

How confident are you that you understand how AGRISENSO Plus works?

What it measures. Self-assessed understanding of how the programme works.

How to ask it. Explain the 1 to 5 scale once: 1 is not at all confident, 5 is very confident.

Watch for. Self-assessment. Do not correct or coach the answer.

D3 Awareness of Program Features

Before entering into the loan agreement, were you aware of the following?

Rows: Eligibility requirements · Eligible activities · Applicable loan amount / ceiling · Interest rate / financing cost · Loan term · Grace period, where applicable · Documentary requirements · Repayment requirements · Where/how to apply

Columns: Program Feature · Yes · No · Not Sure

What it measures. Awareness of nine specific programme features before borrowing.

How to ask it. Ask about awareness before entering the agreement, not what they know today.

Watch for. 'Not sure' is a real answer and should be recorded as such.

D4 Clarity of Program Information

How clear was the information provided before you applied?

Very unclear · Unclear · Neither clear nor unclear · Clear · Very clear

What was most difficult to understand?

Only when D4 Clarity of Program Information = Very unclear or Unclear or Neither clear nor unclear

What it measures. How clear the pre-application information was.

How to ask it. Five-point scale; the follow-up opens on the three lower answers.

Watch for. Record what was difficult in the respondent's own words.

D5 Difficulties During Application

Which difficulties, if any, did you encounter?

Documentary requirements · Lack of acceptable IDs/documents · Eligibility requirements · Collateral/security requirement · Co-maker / guarantor · Distance to Lending Center · Transportation cost · Processing/application costs · Length of processing · Complexity of procedures · Difficulty using digital platforms · Limited digital literacy · Internet/mobile connectivity · Language / communication difficulty · Other · None

What it measures. Difficulties encountered during application. Feeds the next question.

How to ask it. Read all sixteen options. Select all that apply.

Watch for. 'None' clears the other ticks. Answer this properly — the most-significant question offers only what is ticked here.

D6 Most Significant Difficulty

Which was the most significant difficulty?

No significant difficulty

Only when D5 Difficulties During Application includes a listed answer

What it measures. Which difficulty mattered most.

How to ask it. The list shows only what was ticked above.

Watch for. If it says to answer the previous question first, go back and complete it.

D7 Assistance During Application

Did you receive assistance in completing the application?

Yes · No

From whom?

LANDBANK personnel · ACPC / DA · LGU · Cooperative / association · Family / friend · Other

Only when D7 Assistance During Application = Yes

What type of assistance was provided?

Only when D7 Assistance During Application = Yes

What it measures. Whether help was received to complete the application, and from whom.

How to ask it. The follow-ups open on Yes.

Watch for. Record the type of assistance in the respondent's words.

D8 Overall Ease of Access

Overall, how easy or difficult was it to access AGRISENSO Plus financing?

Very difficult · Difficult · Neither difficult nor easy · Easy · Very easy

What it measures. Overall judgement on ease of access.

How to ask it. Ask it last in the section, as a summary.

AGRISENSO Plus Loan Agreement Profile

AGRISENSO Plus Loan Agreement Profile

Reference: Most recent/current AGRISSENSO Plus loan agreement.

What it measures. Scope note for the loan agreement section.

How to ask it. Refers to the most recent or current AGRISSENSO Plus loan agreement.

Watch for. Encourage the respondent to fetch their loan documents. This section is far more accurate with papers in hand.

E1 LANDBANK Lending Center

Name

What it measures. Which LANDBANK lending centre handled the loan.

How to ask it. Record the full official branch name.

Watch for. Free text for now; spellings should be consistent across your assignment.

E2 Application / Agreement / Release Dates

Application month/year

Loan agreement / approval month/year

Loan release month/year

Application / Agreement / Release Dates

Not yet released · Does not recall exact date

What it measures. Application, approval and release dates.

How to ask it. Month and year for each.

Watch for. They should run in chronological order. If release has not happened, use the 'not yet released' option.

E3 Processing Time

Approximately how long was it from submission of a substantially complete application to loan release?

Less than 1 week · 1–2 weeks · 3–4 weeks · More than 1 month but not more than 2 months · More than 2 months ·

Not yet released · Do not recall

What it measures. Processing time as experienced by the borrower.

How to ask it. From a substantially complete application to release — not from first enquiry.

E4 Loan Amount

Amount Applied For: PHP

0 or more; in PHP

Amount Approved under Agreement: PHP

0 or more; in PHP

Amount Released to Date: PHP

0 or more; in PHP; cannot exceed the answer above

Loan Amount

Not yet released

What it measures. Amounts applied for, approved and released.

How to ask it. Peso amounts.

Watch for. Approved may be less than applied for; that difference is meaningful data. Released cannot exceed approved — the app warns. For a partial release, record what has actually been received so far.

E5 Stated Purpose of Loan

What was the intended purpose stated in the application/agreement?

Seeds / planting materials · Fertilizer / crop inputs · Feeds / veterinary inputs · Fingerlings / aquaculture inputs · Livestock / poultry · Labor · Land preparation · Irrigation · Machinery / equipment · Production expansion · Post-harvest / storage · Processing / value addition · Trading / working capital · Transport/logistics · Marketing · Other

Primary purpose

What it measures. The purpose stated in the application.

How to ask it. Select all that apply, then the primary one.

Watch for. This is the stated purpose, not what the money was actually used for — that comes later.

E6 Interest Rate

Reported interest rate (%)

Between 0 and 100; in %

Interest Rate

Per annum · Other basis · Do not know

What it measures. Interest rate as the borrower understands it.

How to ask it. Record the rate and its basis.

Watch for. Record what they believe even if it sounds wrong; do not correct it. 'Do not know' is common and acceptable.

E7 Loan Term

Response (years)

Between 0 and 50; in years

What it measures. Loan term in years.

E8 Repayment Schedule

Repayment Schedule

Monthly · Quarterly · Semi-annually · Annually · Per production cycle / harvest · Lump sum / bullet · Other · Do not know

What it measures. Repayment schedule agreed.

E9 Grace Period

Grace Period

Yes – months · No · Do not know

What it measures. Grace period, where one applies.

E10 Collateral / Security

Was collateral, security, or a guarantee required?

Yes · No · Do not know

Collateral / Security

Real property · Equipment / machinery · Chattel / movable asset · Deposit / savings · Assignment of receivables/proceeds · Cooperative/organizational guarantee · Other

Only when E10 Collateral / Security = Yes

What it measures. Whether collateral or security was required.

How to ask it. The follow-up opens on Yes.

E11 Co-Maker / Guarantor

Was a co-maker or guarantor required?

Yes · No · Do not recall

Co-Maker / Guarantor

Family / household member · Cooperative/association member · Cooperative/organization · Business partner · Other

Only when E11 Co-Maker / Guarantor = Yes

What it measures. Whether a co-maker or guarantor was required.

How to ask it. The follow-up opens on Yes.

E12 Documentary Requirements

Approximately how many documents were required? (documents)

Answering this clears the other answers in this item; between 0 and 100; whole number; in documents

Documentary Requirements

1-3 · 4-6 · 7-10 · More than 10 · Cannot estimate

Answering this clears the other answers in this item

What it measures. Documentary burden of applying.

How to ask it. Approximate number of documents required.

Watch for. The bracket is an alternative to the count, not an addition to it.

E13 Number of Visits

Approximately how many visits to LANDBANK or another relevant office were necessary? (visits)

Answering this clears the other answers in this item; between 0 and 100; whole number; in visits

Number of Visits

No in-person visit · Cannot recall

Answering this clears the other answers in this item

What it measures. Number of office visits needed — a transaction-cost measure.

How to ask it. Visits to LANDBANK or another relevant office.

E14 Application-Related Costs

Estimated transportation/travel cost PHP

Answering this clears the other answers in this item; 0 or more; in PHP

Other application/document-related cost PHP

Answering this clears the other answers in this item; 0 or more; in PHP

Application-Related Costs

Unable to estimate

Answering this clears the other answers in this item

What it measures. Out-of-pocket cost of applying.

How to ask it. Transport and other document-related costs.

Watch for. Both amounts are alternatives to 'unable to estimate'.

E15 First or Repeat AGRISENSO Plus Loan

First or Repeat AGRISENSO Plus Loan

First AGRISENSO Plus loan · Repeat / renewal loan

Total number of AGRISENSO Plus loans, including current loan

Only when E15 First or Repeat AGRISENSO Plus Loan = Repeat / renewal loan

What it measures. Whether this is a first or repeat AGRISENSO Plus loan.

How to ask it. The count opens if it is a repeat.

E16 Other Active Financing

Aside from AGRISENSO Plus, do you currently have another active loan?

Yes · No

Main source:

LANDBANK – another program · Other bank · Rural/cooperative bank · Cooperative · Microfinance institution · Government financing program · Informal lender · Trader/buyer · Input supplier · Digital lender · Family/friends · Other

Only when E16 Other Active Financing = Yes

What it measures. Other active borrowing, which bears on repayment capacity.

How to ask it. Any current loan aside from AGRISENSO Plus. The source question opens on Yes.

E17 Current Repayment Status

Ask only if repayment has commenced.

Repayment has not yet started / within grace period · Current / on schedule · Delayed at least once but currently up to date · Currently overdue · Other · Prefer not to answer

What it measures. Current repayment status.

How to ask it. Ask only if repayment has actually commenced.

Watch for. Skip it entirely where repayment has not started.

Loan Utilization and Financing Adequacy

F1 Actual Use of Loan Proceeds

Actual Use of Loan Proceeds

Rows: Seeds / planting materials · Fertilizer / crop inputs · Feeds / veterinary inputs · Fingerlings / aquaculture inputs · Livestock / poultry · Labor · Land preparation · Irrigation · Machinery / equipment · Production expansion · Post-harvest / storage · Processing / value addition · Trading / working capital · Transport / logistics · Marketing · Diversification · Repayment/refinancing of another obligation · Household / personal expenses · Other: _____ · TOTAL

Columns: Actual Use · Approximate %

Actual Use of Loan Proceeds

Unable to estimate percentages

What it measures. How the proceeds were actually used, as percentages.

How to ask it. Read the categories and record a percentage for each.

Watch for. The Total is computed. Enter 0 for categories with no spend rather than leaving them blank.

F2 Primary Use

What was the single largest use of the loan?

What it measures. The single largest use of the loan.

F3 Intended Versus Actual Use

Was the loan generally used for the same purpose stated in the application?

Yes, substantially the same · Partly · No, substantially different · Do not recall

Why?

Priorities changed · Loan amount insufficient · Input costs increased · Production/enterprise emergency · Household emergency · Needed to meet another financial obligation · Market conditions changed · Weather/disaster/pest/disease shock · Other

Only when F3 Intended Versus Actual Use = Partly or No, substantially different or Do not recall

What it measures. Whether actual use matched the stated purpose.

How to ask it. Ask without judgement; the 'why' follow-up opens on anything other than a full match.

Watch for. This is explanatory, not accusatory. Diverted use is a finding, not a fault to be hidden.

F4 Loan Adequacy

Was the approved loan sufficient for the financing need?

Fully sufficient · Partly sufficient · Insufficient

What it measures. Whether the approved amount was sufficient.

F5 Intended Activities Not Fully Financed

Were there activities you could not undertake or fully finance because the loan was insufficient?

Yes · No

Intended Activities Not Fully Financed

Inputs · Labor · Irrigation · Equipment/machinery · Production expansion · Post-harvest/storage · Processing/value addition · Trading/working capital · Transport/logistics · Marketing · Diversification · Other

Only when F5 Intended Activities Not Fully Financed = Yes

What it measures. Activities that could not be undertaken for lack of funds.

How to ask it. The follow-up opens on Yes.

F6 Estimated Financing Gap

How much additional financing would have been needed? PHP

Answering this clears the other answers in this item; 0 or more; in PHP

Estimated Financing Gap

Unable to estimate · Prefer not to answer

Answering this clears the other answers in this item

What it measures. Size of the financing gap.

How to ask it. Ask for the peso amount of additional financing needed.

F7 Supplementary Financing

Did you use other funds in addition to AGRISENSO Plus for the same activity?

Yes · No

Supplementary Financing

Own savings / retained earnings · Other bank loan · Cooperative credit · Microfinance · Informal lender · Trader/buyer · Input supplier · Family/friends · Government assistance · Other

Only when F7 Supplementary Financing = Yes

What it measures. Whether other funds were used for the same activity.

How to ask it. The source follow-up opens on Yes.

F8 Timeliness of Loan Release

Was the loan released when the financing was needed?

Fully on time · Somewhat late but still usable · Too late for some intended activities · Too late for most/all intended activities · Timing was not critical

What was the main effect?

Delayed activity · Reduced scale/production area · Purchased fewer inputs · Borrowed elsewhere · Used own funds · Missed production/market opportunity · Changed use of loan · Other

Only when F8 Timeliness of Loan Release = Somewhat late but still usable or Too late for some intended activities or Too late for most/all intended activities

What it measures. Whether the loan arrived when it was needed.

How to ask it. The effect follow-up opens where the release was late.

Watch for. Timeliness matters as much as amount for seasonal activities.

F9 Overall Financing Adequacy

Considering the amount, timing, and intended use, how adequate was the AGRISENSO Plus financing?

Very inadequate · Inadequate · Neither adequate nor inadequate · Adequate · Very adequate

Reason

What it measures. Overall adequacy, taking amount, timing and use together.

How to ask it. A summary judgement, with a reason in the respondent's words.

Financial Knowledge and Capability

G1 Understanding Financing Terms

How confident are you that you understand interest rates, loan terms, repayment schedules, grace periods, and fees?

What it measures. Confidence in understanding financing terms.

How to ask it. Explain the 1 to 5 scale once here, and do not re-explain it at every following scale.

Watch for. Read each question stem in full even though the scale repeats. No N/A — leave blank if they will not answer.

G2 Comparing Financing Options

How confident are you that you can compare different financing options?

What it measures. Confidence in comparing financing options.

G3 Preparing a Budget

How confident are you that you can prepare a simple budget for the farm/fishery/enterprise?

What it measures. Confidence in preparing a budget.

G4 Understanding Cost of Borrowing

How confident are you that you understand how interest, loan duration, and charges affect total repayment?

What it measures. Confidence in understanding the cost of borrowing.

G5 Assessing Repayment Capacity

How confident are you that you can assess whether expected income will be sufficient to meet repayments?

What it measures. Confidence in assessing repayment capacity.

G6 Repayment Planning

How confident are you that you can plan repayment based on expected income or production cycles?

What it measures. Confidence in planning repayment.

G7 Separation of Household and Enterprise Finances

How often do you keep farm/enterprise funds separate from household/personal funds?

Always · Often · Sometimes · Rarely · Never

Only when A2 Borrower Type = Individual borrower

What it measures. Whether enterprise and household money are kept separate.

How to ask it. Individual branch only. Ask for frequency, not yes or no.

G8 Budgeting Practice

How often do you prepare or use a budget/spending plan?

Always · Often · Sometimes · Rarely · Never

What it measures. Budgeting practice, as opposed to budgeting confidence.

How to ask it. How often.

Watch for. A confident respondent may still never budget. Record practice, not capability.

G9 Record-Keeping Practice

How often do you record income and expenses?

Always · Often · Sometimes · Rarely · Never

What it measures. Record-keeping practice.

How to ask it. How often.

Watch for. Should be consistent with the record-keeping answer in Section C.

G10 Repayment Planning Practice

Before borrowing, did you identify where repayment funds would come from and when they would become available?

Yes, clearly · Partly · No

What it measures. Whether repayment was planned before borrowing.

G11 Savings / Financial Buffer

Do you or the organization set aside savings/reserves?

Regularly · Occasionally · No

Savings are set aside mainly for:

Emergency needs · Production expenses · Operating expenses · Loan repayment · Equipment · Expansion/investment
· Disaster/production shocks · Other

Only when G11 Savings / Financial Buffer = Regularly or Occasionally

What it measures. Savings behaviour and what savings are for.

How to ask it. The purpose question opens only for 'regularly' or 'occasionally'.

Watch for. Answering 'No' closes the purpose list, correctly.

G12 Digital Financial Services

During the past 12 months, have you used:

Rows: Mobile banking · Digital wallet (e.g., GCash/Maya) · Digital payments to suppliers/workers · Digital receipt of payments · Online bank transfers · Online/digital loan-related transactions

Columns: Service · Yes · No

Difficulties experienced with digital financial services

Connectivity · Device access · Limited digital skills · Difficult platform/application · Fraud/security concern · Privacy concern · Fees · Language/comprehension · Prefer face-to-face · Other

What it measures. Use of digital financial services, and difficulties with them.

How to ask it. Six services, each yes or no, for the past 12 months.

G13 Training / Advisory Support

During the past 12 months, have you received:

Financial literacy / financial management · Budgeting / bookkeeping · Loan orientation / responsible borrowing · Farm/fishery management · Enterprise/business management · Marketing · Production technology · Digital finance · Other · None

What it measures. Training or advisory support received in the past 12 months.

How to ask it. Select all. 'None' closes the provider and usefulness questions.

G14 Training Provider

Training Provider

ACPC / DA · LANDBANK · Other financial institution · LGU · Cooperative / association · Other government agency · Private sector · NGO / development partner · Training/educational institution · Other

Only when G13 Training / Advisory Support includes a listed answer

What it measures. Who provided the training.

How to ask it. Select all.

G15 Usefulness of Training

Usefulness of Training

Not at all useful · Slightly useful · Moderately useful · Very useful · Extremely useful

Only when G13 Training / Advisory Support includes a listed answer

Have you applied anything learned?

Yes · Partly · No · Too early to assess

Only when G13 Training / Advisory Support includes a listed answer

What it measures. Usefulness of the training and whether anything was applied.

G16 Financing and Enterprise Decision-Making

Who usually has the main say?

Rows: Applying for financing · Use of borrowed funds · Major farm/enterprise investments · Marketing / buyer decisions · Major expenditures

Columns: Decision · Respondent · Spouse/Partner · Jointly · Other Household Member · Organization · Other

Only when A2 Borrower Type = Individual borrower

Financing and Enterprise Decision-Making

Rows: Applying for financing · Use of borrowed funds · Major investments · Marketing / buyer decisions · Major expenditures

Columns: Decision · Owner/Proprietor · Manager · Officers · Board · Members / GA · Joint/Other

Only when A2 Borrower Type = Organizational / enterprise borrower

What it measures. Who decides on financing and enterprise matters.

How to ask it. Only the version matching the borrower type appears — household roles for individuals, governance roles for organisations.

G17 Overall Financial-Management Confidence

Overall, how confident are you in managing the finances of the farm, fishery, organization, or enterprise?

What it measures. Overall financial-management confidence.

How to ask it. The closing scale.

Borrower Experience, Assessment, and Suggestions

H1 Expectations from AGRISENSO Plus

If Loan Has Not Yet Been Released Proceed to H7 – Likelihood of Future/Repeat Borrowing, then H9 onward.

Before entering into the loan agreement, what did you primarily expect the financing to help you achieve?

Maintain operations · Increase production · Improve productivity · Purchase inputs on time · Acquire machinery/equipment · Expand operations · Improve product quality · Improve market access · Increase sales/income · Reduce reliance on informal borrowing · Improve financial stability · Other

What it measures. What the borrower expected the financing to achieve.

How to ask it. Ask about expectations before the agreement.

H2 Extent Expectations Have Been Met

For borrowers with released loan proceeds only.

Not at all · To a small extent · To a moderate extent · To a great extent · Completely · Too early to assess

Reason

What it measures. Whether those expectations have been met.

How to ask it. Ask only where loan proceeds have been released.

Watch for. Skip it where they have not.

H3 Most Important Perceived Benefit

What has been the most important benefit experienced so far?

Easier access to formal credit · Affordable financing cost · Suitable repayment terms · Reduced reliance on informal lenders · Increased working capital · Inputs purchased on time · Equipment acquired · Production/enterprise expanded · Post-harvest/processing activity supported · Better ability to manage seasonal financing needs · Training/advisory support · No significant benefit yet · Too early to assess · Other

What it measures. The most important benefit experienced so far.

H4 Confidence in Farm / Enterprise Decision-Making

Since receiving the financing, has your confidence in making farm, fishery, enterprise, or financial decisions:

Increased a lot · Increased somewhat · Stayed about the same · Decreased somewhat · Decreased a lot · Too early to assess

Why?

What it measures. Whether confidence in decision-making has changed since the financing.

H5 Challenges After Receiving Financing

Which challenges have you experienced?

Difficulty meeting repayment schedule · Loan amount insufficient · Loan released later than needed · Input/operating costs increased · Weather/disaster/production losses · Pest/disease problems · Market-access problems · Low/unstable prices · Cash-flow difficulty · Limited technical/enterprise support · Other · No significant challenge

What it measures. Challenges experienced after receiving the financing.

How to ask it. Select all that apply.

H6 Overall Satisfaction with AGRISENSO Plus

How satisfied are you overall with AGRISENSO Plus so far?

Very dissatisfied · Dissatisfied · Neither satisfied nor dissatisfied · Satisfied · Very satisfied · Too early to assess

Reason

What it measures. Overall satisfaction.

Watch for. The 'why' answer here is one of the most useful free-text responses in the study. Give it time.

H7 Likelihood of Borrowing Again

If you need financing in the future and remain eligible, how likely are you to apply for AGRISENSO Plus again?

Very unlikely · Unlikely · Not sure · Likely · Very likely

Why?

What it measures. Likelihood of borrowing again.

How to ask it. If in need and still eligible.

H8 Comparison with Other Agricultural Financing Programs

Have you previously used another LANDBANK or government-supported agricultural financing program?

Yes · No

Compared with that experience, AGRISENSO Plus is:

Much less favorable · Somewhat less favorable · About the same · Somewhat more favorable · Much more favorable · Cannot compare

Only when H8 Comparison with Other Agricultural Fina = Yes

Main reason

What it measures. Comparison with other agricultural financing programmes.

How to ask it. The comparison opens only if another programme was used.

H9 Most Significant Financing Challenge

What is the single most significant challenge you currently face in accessing or using agricultural financing?

What it measures. The single most significant financing challenge, in the respondent's own words.

How to ask it. Open text. Do not lead and do not offer categories.

Watch for. Record their words, not your summary.

H10 Most Important Improvement to AGRISENSO Plus

What is the one most important improvement you would recommend?

Improve information dissemination · Clarify eligibility and loan terms · Assist applicants with documents · Simplify procedures · Reduce processing time · Improve access/application channels · Improve digital options · Provide digital assistance · Review loan amount · Review repayment terms · Strengthen capacity-building · Improve coordination with cooperatives/LGUs · Other

Why?

What it measures. The one most important improvement they would recommend.

How to ask it. Push gently for one, not a list.

H11 Additional Support Needed

Aside from financing, what support would be most useful?

Production / technical training · Financial-management training · Bookkeeping / record keeping · Enterprise/business management · Market information · Market linkage · Post-harvest support · Processing / value addition · Technology / mechanization · Digital-finance support · Insurance / risk management · Cooperative / organizational strengthening · Other · None identified

What it measures. Non-financial support that would be useful.

How to ask it. Select all that apply.

H12 Additional Comments

Is there anything else you would like ACPC to know about your experience with AGRISENSO Plus or your financing needs?

What it measures. Anything else the respondent wants ACPC to know.

How to ask it. Give them time. Silence is fine — do not fill it.

Enumerator Final Review

Enumerator Final Review

Before ending the interview, confirm:

Borrower eligibility was verified against the approved sampling frame. · Individual versus organizational routing was correctly followed. · Loan-release routing was correctly followed. · Questions on actual utilization/post-release experience were not asked where the loan had not yet been released. · Reference periods were applied consistently. · Commodity-appropriate units were used. · Exact monetary amounts were requested first and ranges used only where necessary. · Missing/refused responses were properly coded. · Questionnaire was reviewed for completeness before closing.

What it measures. Your own completeness check before submitting.

How to ask it. Work through the nine points after the interview ends.

Watch for. Tick only what you actually did. It exists to catch your own omissions, not as a formality.

QC1 Interview Outcome

Record how this interview actually ended. Complete this only after the respondent interview is finished.

Interview Outcome

Completed · Partially completed · Callback required · Respondent refused · Respondent unavailable · Respondent ineligible · Other

Callback date

Only when QC1 Interview Outcome = Callback required or Respondent unavailable

Callback time

Only when QC1 Interview Outcome = Callback required or Respondent unavailable

Callback arrangement / reason

Only when QC1 Interview Outcome = Callback required or Respondent unavailable

What it measures. How the interview actually ended. Builds the sample disposition.

How to ask it. Complete after the interview, not before.

Watch for. 'Completed' only if you reached the last section and asked every applicable question. 'Callback required' and 'Respondent unavailable' open the callback date, time and notes.

QC2 Post-Interview Quality Control

These fields are maintained by the field supervisor and the data manager after submission. Leave them at their default values — the enumerator does not verify their own interview.

Supervisor Verification

Pending · Completed

Data Verification Status

Pending verification · Verified

Back-check Status

Not yet selected · Selected for back-check · Completed · Unable to complete · Not selected

What it measures. Post-interview quality control, owned by the supervisor and data manager.

How to ask it. Leave every field at its default.

Watch for. An enumerator marking their own interview verified defeats the control. The supervisor changes these, not you.

Enumerator Observation / Interview Notes

Enumerator Observation / Interview Notes

Complete after the respondent interview. Record objective conditions only. Did any of the following occur?

No significant issue · Interview interrupted · Other persons present during part/all of interview · Respondent had difficulty recalling information · Respondent had difficulty understanding questions · Interview completed in more than one session · Some questions were not completed · Language / communication difficulty · Other relevant circumstance

Brief factual notes:

What it measures. Objective conditions that may bear on data quality.

How to ask it. Complete immediately after the interview, while it is fresh.

Watch for. Facts, not impressions. 'Respondent consulted loan documents' is useful; 'seemed evasive' is not. Tick 'No significant issue' if nothing occurred.

Closing Statement

Closing Statement

Thank you very much for your time and for sharing your experience. The information you provided will form part of the AGRISENSO Plus Baseline Study and will help ACPC better understand the conditions, financing needs, and experiences of AGRISENSO Plus borrowers. Your responses will be handled in accordance with the confidentiality and data-protection arrangements explained at the start of the interview.

End Time

What it measures. The closing statement and the automatic end time.

How to ask it. Read the closing statement before putting the device away.

Watch for. Thank the respondent, confirm what happens next, and answer any questions about the study.
