

Item-by-item discussion guide

Every question in both instruments: how to ask it, what to probe for, and what the app does with the answer.

How to use this guide

Find the item number on screen, find it here. Every entry says how to ask the question, what to probe for, and what the app does with the answer.

Sections 1, 2, B and C are **identical in both instruments** and are written once. Section A (screening) and sections D onward differ, so each instrument has its own part.

Marks used throughout

Mark	Meaning
★	Required. The page will not advance until it is answered
→	The answer changes what comes next
■	A routing gate. A wrong answer here stops the interview
auto	Filled by the app. Do not type over it

Three rules that apply to every item

1. **Read the question as written.** Rephrasing changes what is being measured. Translate into the dialect if needed, but do not add or drop conditions.
2. **Never suggest an answer.** Read the options in the order shown for select questions. For open numeric questions, do not offer a figure to agree with.
3. **Blank is a valid answer** for everything except the fifteen starred items. Never enter a filler to move on.

Sections 1 and 2 — Administration and consent

Both instruments. Do not read Section 1 aloud; it is yours to complete. Section 2 is read to the respondent word for word.

Section 1 — Questionnaire administration

Item	How to complete it
Questionnaire Version auto	Already filled and locked. If it is blank, stop and call your supervisor — the app did not load properly
Date of Version auto	Locked
Control Number auto	Generated for this interview. Write it on any paper notes so the two can be matched later
Borrower / Sampling Frame ID	Copy it exactly as printed on the approved list, including dashes and leading zeros. This is the only link between the interview and the sample. If you cannot find the ID, do not invent one — leave it blank and call your supervisor
Enumerator Name / ID	Use the agreed format every single time, for example <code>De la Cruz, Juan M.</code> Start typing and pick your name if it appears
Supervisor Name / ID	Same format, same spelling every time
Date of Interview auto	Recorded when you reach this section
Start Time auto	Recorded automatically
End Time auto	Recorded when you reach the last section
Language Primarily Used ★	The language you actually conducted the interview in, not the one printed on the form. Pick "Local language/dialect" and name it if you switched
Interview Mode ★	Face-to-face unless the protocol approved another mode

Section 2 — Introduction and informed consent

Read the consent script exactly as written. Do not summarise it. It takes three to four minutes and it is the legal basis for the whole interview. Insert your own name where the script indicates.

Item	How to ask it	What to watch
Consent to Participate ★ ■ — <i>"Do you voluntarily agree to participate in this survey?"</i>	Ask after the full script, not before	No ends the interview immediately. Thank the respondent, then submit the record so the refusal is counted. Do not try to persuade them
Consent for Validation ★ — <i>"May the research team contact you again... for a brief validation or back-check?"</i>	Ask plainly	Say clearly that No here does not affect the present interview . Some respondents assume refusing ends it
Enumerator Attestation ★	You tick this, not the respondent	Only tick it if you genuinely read or explained the consent. It is your certification
Respondent Signature (optional)	Offer it; never insist	Genuinely optional. A respondent who consented verbally but will not sign is still a valid interview

Section A — Screening, Instrument A (borrowers)

This section decides whether the interview happens at all, and which branch it takes. Work from the printed sampling frame, not from what the respondent tells you.

Item	How to ask it	What to watch
A1.1 Region ★ →	Pick from the list	Choosing a region loads the province list and sets Island Group automatically. Changing it later clears province, municipality and barangay — that is intended
A1.2 Province	Pick from the list if it appears	With no signal these stay text boxes. Type exactly as printed on the sampling frame

Item	How to ask it	What to watch
A1.3 Municipality / City	Same	Watch for "Science City of Muñoz" style official names. Copy the frame, do not shorten
A1.4 Barangay	Same	
A1.5 Island Group auto	Do not ask	Derived from region
A2.1 Borrower Type ★ →	Read this off the sampling frame. Do not ask the respondent to classify themselves	The single most consequential answer in the instrument. Individual opens the household questions; Organisational opens the enterprise questions and skips the household block entirely
A3.1 Borrower Segment	Confirm against the frame	Must be consistent with A2. A cooperative or ARBO is not an individual borrower. If the frame and what you see disagree, record the frame and flag it
A4.1 / A4.2 Name	Only the one matching A2 appears	Confirm against the frame. Do not correct a spelling on the respondent's say-so — note it and tell your supervisor
A5.1 Loan Agreement Verification ★ ■ — <i>"Does the approved borrower list... confirm an existing AGRISENSO Plus loan agreement with LANDBANK?"</i>	This is about the record , not the respondent's memory	Yes continues. No stops the interview — not a borrower. Unable to verify stops it and refers to the supervisor. Do not ask substantive questions after either

Item	How to ask it	What to watch
A6.1 Status of Loan Release ★ →	Ask how much of the approved loan has actually been released	Drives Section F. "Not yet released" skips the utilisation questions — correct, because there are no proceeds to discuss. Do not guess on the respondent's behalf
A7.1 Named borrower ★ ■	Individual branch only	No refers to the supervisor. A spouse or child answering for the named borrower is not the named borrower
A7.2 Age 18 or older ★ ■	Ask directly	No ends the interview. Arrange a replacement
A7.3 Directly involved in decisions ★ ■	Ask about the activity covered by the loan	No refers to the supervisor. Someone who only helps with labour is not involved in decisions
A8.1 Role in the organisation ★	Organisational branch only	Record the actual role, not the most senior-sounding one
A8.2 Authorised or knowledgeable ★ ■	Read the full list: the loan, operations, use of proceeds, finances	No stops the interview. Ask for an authorised officer, or book a callback. Do not proceed with a willing but uninformed person
A9.1 Loan Reference Information	Select the single option	Account numbers are deliberately kept out of the survey dataset. Record any reference only in the protected tracking file
A10.1 Final Eligibility auto	Do not ask, do not click	Computed from A5, A6, A7 and A8. If it reads <i>Not yet determined</i> , a screening answer above is missing

Section A — Screening, Instrument B (comparison group)

The item numbers differ from Instrument A. **A7 is application status, A8 is individual eligibility, A9 is organisational eligibility.** Enumerators who work both instruments mix these up; check the heading, not the number.

The purpose here is the mirror image of Instrument A: you are confirming the respondent is **not** and **has never been** an AGRISENSO Plus borrower.

Item	How to ask it	What to watch
A1.1–A1.4 Location ★	As Instrument A	Region sets Island Group and loads the province list
A1.5 Island Group auto	Do not ask	
A2.1 Respondent Type ★ →	Read off the comparison-group sampling frame	Same consequence as in Instrument A: it opens either the household block or the enterprise block
A3.1 Respondent Segment	Confirm against the frame	Must be consistent with A2
A4.1 / A4.2 Name	Only the one matching A2 appears	
A5.1 Current loan agreement ★ ■ — <i>"Does the respondent or organization currently have an AGRISENSO Plus loan agreement with LANDBANK?"</i>	Note the option order: No – Continue comes first, because No is the expected answer here	Yes ends the interview — this person belongs in the borrower sample, not the comparison group. Refer to your supervisor for a replacement
A6.1 Previous loan agreement ★ ■ — <i>"...ever previously had... including one already fully paid, closed, or terminated?"</i>	Read the whole question. "Previously" includes loans already settled	Yes ends the interview. Respondents often say No meaning "not right now" — probe once: <i>"Kahit matagal na, o bayad na?"</i>

Item	How to ask it	What to watch
A7.1 Application status ★	Read all options before accepting an answer	Not a gate, but analytically central — it separates never-applied from tried-and-failed. If Approved but no loan agreement executed , refer to your supervisor before continuing; eligibility depends on the final protocol
A8.1 Age 18 or older ★ ■	Individual branch only	No ends the interview
A8.2 Directly involved in decisions ★ ■	About their own farm, fishery or enterprise	No refers to the supervisor
A9.1 Role ★	Organisational branch only	Record the actual role
A9.2 Authorised or knowledgeable ★ ■	Read the full list: operations, financing needs, current financing sources, finances	No stops the interview. Find an authorised officer or book a callback
A10.1 Final Eligibility auto	Do not ask, do not click	Computed from A5, A6, A8 and A9

Section B — Respondent and household profile

Both instruments, identical items. Almost the whole section applies only to the individual branch. For an organisational respondent nearly all of it is skipped, and only the representative's sex is recorded.

This section covers personal matters. Say once, at the start: *"Kung ayaw ninyong sagutin ang alinman dito, sabihin lang po — puwedeng laktawan."*

Item	How to ask it	What to watch
B1.1 Respondent Sex	Individual branch. Observe where obvious rather than asking awkwardly; ask if unsure	"Prefer not to answer" is available

Item	How to ask it	What to watch
B1.2 Representative Sex	Organisational branch	For field documentation only. This is not the sex classification of the organisation — say so if the respondent looks puzzled
B2.1 Age ★	<i>"Ilang taon na po kayo?"</i> Completed years	Must be 18 or over; the app rejects less. If the respondent is unsure, help them work it from a birth year. Never leave 0
B2.2 Age Group auto	Do not ask	Derived from B2.1
B3.1 Highest Educational Attainment	Read the options; do not guess from appearance	Note the level-versus-graduate distinction: "Elementary level" means attended but did not finish
B4.1 Civil Status	Read the options	"Living with partner" is distinct from "Married" — do not merge them
B5.1 Household Size	<i>"Kasama kayo, ilan ang karaniwang nakatira sa bahay ninyo?"</i>	Minimum 1, because the respondent counts. "Usually live" means regular members — include a child studying elsewhere who comes home, exclude a long-term overseas worker unless the household treats them as resident
B6.1 Economically Active Members	18 or older, earning or actively engaged in a livelihood	Cannot exceed B5.1 — the app warns. 0 is a legitimate answer; blank is not the same thing
B7.1 Household Dependents	Members mainly dependent on others for financial support	Cannot exceed B5.1. B6 and B7 need not sum to B5 — some members are neither
B8.1 Monthly Household Income	Ask for the exact average monthly amount first , all sources, whole household	The most refused question in the instrument. Ask it matter-of-factly and move on

Item	How to ask it	What to watch
B8.2 Cannot or will not give exact	Only if B8.1 produced nothing	Distinguish "unable to estimate" from "prefers not to" — they are different answers
B8.3 Income bracket	Appears once B8.2 is answered	If they refuse entirely, choose "Prefer not to answer" here too. Do not push for a bracket after a refusal
B9.1 Primary Household Livelihood	The main source for the household, not the respondent's activity	May differ from the farm enterprise — a household can farm while its main income is a pension or remittances
B10.1 Indigenous Peoples Identification	Read as written; it is self-identification	Never infer it. "Prefer not to answer" is available
B10.2 IP Group	Appears only after Yes	Optional even then. Record the community name as given
B11.1 Disability Status	Self-identification again	Do not infer from what you observe
B12.1 Mobile Phone Access	Regular access for communication or financial transactions	Access, not ownership — that is what B12.2 separates
B12.2 Own or shared phone	Appears only after Yes	
B13.1 Internet / Mobile Data Access	Read all four options	Asked of both branches. "Rarely" and "No access" are different

Section C — Farm, fishery and enterprise

Both instruments, identical items. This is the longest section: budget 18 minutes.

Unless a question says otherwise, everything refers to the **principal** activity and the **most recent completed cycle**.

C1 controls the whole section. The production questions (C4–C11, C17, C18, C23) appear only for crop, fisheries, aquaculture, livestock or poultry producers. A trader or processor is asked 18 questions here; a mixed farmer is asked 52. Tick only what is genuine.

Item	How to ask it	What to watch
C1.1 Current Activities →	Read every option before accepting. Select all that apply	The most consequential item in the section. An extra careless tick opens a whole production block. "Other agriculture-related activity" covers anything unlisted
C2.1 Principal Activity	Offers only what you ticked in C1	If it says <i>answer C1 first</i> , go back. The principal activity is the main one, not the first mentioned
C2.2 Principal Commodity	<i>"Ano ang pangunahing produkto?"</i>	Be specific: "Palay (rice)", not "farming". Carries forward to C7
C3.1 Years in Operation	Years engaged in this principal activity	For under a year, leave blank and tick C3.2 instead — the two are alternatives
C3.2 Less than one year	Alternative to C3.1	Choosing one clears the other
C4.1 Total Area	Numbers only	Applies to land-based activities. If none applies, tick C4.4
C4.2 Unit	Hectares or square metres	Chosen once, applies to both areas. Do not mix units
C4.3 Area Cultivated	Area actually used this cycle	Cannot exceed C4.1 — the app warns. Fallow or idle land is the difference
C4.4 Not applicable	For activities with no land or production area	Clears the three area fields
C5.1 Land Tenure	Select all that apply	Several can be true — owned plus rented is common
C6 Production Scale	Fill only the rows matching the activity	Use commodity-appropriate units. Leave irrelevant rows empty rather than writing N/A

Item	How to ask it	What to watch
C7.1 Commodity	Carried forward from C2.2	Edit only if this cycle's commodity differed
C7.2 Total Production Volume	Numbers only	Alternative to C7.6
C7.3 Unit	Match it to the volume	Cavans and kilograms are not interchangeable — record what they actually said
C7.4 Yield per Hectare	Only where meaningful	Skip for livestock, poultry and enterprise activities
C7.5 Yield Unit	Appears once C7.4 is answered	
C7.6 Unable to estimate / Not applicable	Alternative to C7.2	
C8.1 Production Cycles	Completed cycles in the past 12 months	For continuous operations, leave blank and tick C8.2
C8.2 Continuous / Not applicable	Alternative to C8.1	Livestock and poultry are often continuous
C9.1 Irrigation / Water Source	The principal source	Shown only for crop production and aquaculture
C10.1 Mechanisation	Machinery or mechanised equipment this cycle	Yes opens C10.2 and C10.3
C10.2 Where used	Select all that apply	
C10.3 Mode of Access	The main mode	Rented and borrowed are different
C11.1 Major Inputs	Select all that apply	
C12.1 Extension Support	Past 12 months, any technical or enterprise support	Yes opens C12.2
C12.2 Type of support	Select all that apply	
C12.3 Provider	Select all that apply	More than one provider is common

Item	How to ask it	What to watch
C13.1 Production / Operating Cost	Ask for the exact peso amount first	Most recent completed cycle. Prompt for the components — seeds, fertiliser, labour, fuel — if they hesitate
C13.2 Cannot give exact	Only after C13.1 fails	
C13.3 Cost bracket	Appears after C13.2	
C14.1 Gross Sales / Revenue	Exact amount first. Same reference period, before expenses	Say "before expenses" clearly — respondents often give net
C14.2 / C14.3	Fallback then bracket	Same pattern as C13
C15.1 Net Income / Profit	Same period, after deducting expenses	Accepts a negative number. Record a loss as negative, never as 0 — 0 reads as break-even. Sanity-check against C13 and C14
C15.2 Break-even / Net loss / Unable / Prefer not	Alternative to C15.1	If they can name the loss amount, use C15.1 instead
C17 Output Disposition	Percentages of output across the five uses	The Total is computed for you. Rows should reach 100%. Zero is right for a category with no output — do not leave blanks meaning zero
C17.2 Unable to estimate	If percentages are impossible	
C18.1 Losses	Production or post-harvest losses in the period	Yes opens C18.2 and C18.3
C18.2 Proportion Lost	Percentage, 0–100	
C18.3 Main Reason	Record what they said, in their words	
C19.1 Main Buyers	Select all that apply	
C20.1 Value-Chain Participation	Stages they are involved in	Most smallholders are production only; do not over-tick

Item	How to ask it	What to watch
C21.1 Major Shocks	Past 12 months. Read every option. Select all	"None" clears the others automatically
C21.2 Greatest Effect	Offers only the shocks ticked in C21.1	Ask which hurt most, even if several occurred
C21.3 Main Effect	Effect of that one shock	
C22.1 Risk-Management Practices	Select all currently used	"None" clears the others
C23.1 Insurance	Any cover on farm, stock, equipment or enterprise	Yes opens C23.2 to C23.4
C23.2 Type / C23.3 Provider	Select all that apply	"Do not know" is a valid provider answer
C23.4 Ever filed a claim		Yes opens C23.5
C23.5 Claim outcome	Fully paid, partially paid, pending, denied	

Instrument A only — Sections D to H

Section D — Awareness and access experience

All of Section D is about the period **before and during the application**, not now.

Item	How to ask it	What to watch
D1.1 Source of Information	How they first learned of the programme	First source, not every source
D2 Understanding — scale 1 to 5	Explain the scale once: 1 is not at all confident, 5 is very confident	Self-assessment. Do not correct or coach them
D3 Awareness of Features	Nine features, each Yes / No / Not sure	Ask about awareness before entering the agreement , not what they know today. "Not sure" is a real answer
D4.1 Clarity of Information	Five-point scale from very unclear to very clear	

Item	How to ask it	What to watch
D4.2 What was difficult	Opens only for the three lower answers	Record in their words
D5.1 Difficulties →	Read all sixteen options. Select all that apply	Feeds D6 directly. "None" clears the rest
D6.1 Most Significant Difficulty	Offers only what was ticked in D5	If it says answer D5 first, go back
D7.1 Assistance Received	During the application	Yes opens D7.2 and D7.3
D7.2 From whom / D7.3 What type		Record the type in their words
D8.1 Overall Ease of Access	Five-point scale	A summary judgement; ask it last in the section

Section E — Loan agreement profile

About the **most recent or current** agreement. Encourage the respondent to consult their loan documents; this section is far more accurate with papers in hand. **Budget 11.5 minutes.**

Item	How to ask it	What to watch
E1.1 Lending Center	Name of the LANDBANK branch or lending centre	Free text. Use the full official branch name
E2.1–E2.3 Dates	Application, approval, release — month and year each	Chronological order. If release has not happened, use E2.4
E2.4 Not yet released		Consistent with A6
E3.1 Processing Time	From a substantially complete application to release	Not from first enquiry
E4.1 Amount Applied For	Peso amount	
E4.2 Amount Approved	Peso amount	May be less than applied for — that is meaningful data

Item	How to ask it	What to watch
E4.3 Amount Released to Date	Peso amount	Cannot exceed E4.2; the app warns. For partial release, this is the amount actually received so far
E4.4 Not yet released		
E5.1 Stated Purpose	The purpose in the application , select all	Not what they actually did with it — that is F1
E5.2 Primary Purpose	The single main one	
E6.1 Interest Rate	Percentage as reported	Record what they believe, even if it sounds wrong. Do not correct it
E6.2 Basis	Per annum, other basis, or do not know	"Do not know" is common and acceptable
E7.1 Loan Term	In years	
E8.1 Repayment Schedule		
E9.1 Grace Period		
E10.1 Collateral Required	Collateral, security or guarantee	Yes opens E10.2
E11.1 Co-maker Required		Yes opens E11.2
E12.1 Documents Required	Approximate count	Alternative to the E12.2 bracket
E13.1 Number of Visits	To LANDBANK or another office	Alternative to E13.2
E14.1 Transport Cost / E14.2 Other Costs	Out-of-pocket costs of applying	Both alternatives to E14.3
E15.1 First or Repeat Loan		Repeat opens E15.2
E16.1 Other Active Financing	Any other current loan	Yes opens E16.2
E17.1 Repayment Status	Ask only if repayment has begun	Skip it entirely if it has not

Section F — Loan utilisation and adequacy

Applies only where loan proceeds have been released. If A6 said not yet released, the whole section is skipped — correct, because there are no proceeds to discuss.

Item	How to ask it	What to watch
F1 Actual Use of Proceeds	Percentage across the use categories	The Total is computed. Enter 0 for categories with no spend
F1.2 Unable to estimate		
F2.1 Primary Use	The single largest use	
F3.1 Intended versus Actual	Was it used as stated in the application	Ask without judgement. Partly or No opens F3.2
F3.2 Why		This is explanatory, not accusatory
F4.1 Loan Adequacy	Was the approved amount sufficient	
F5.1 Activities Not Financed	Anything they could not do	Yes opens F5.2
F6.1 Financing Gap	How much more was needed, in pesos	Alternative to F6.2
F7.1 Supplementary Financing	Other funds used for the same activity	Yes opens F7.2
F8.1 Timeliness of Release	Was it released when needed	Late answers open F8.2
F9.1 Overall Adequacy	Amount, timing and use together	A summary judgement
F9.2 Reason	In their words	

Section G — Financial knowledge and capability

Six confidence scales, then practice questions. **Explain the 1 to 5 scale once, at G1, and do not re-explain it each time** — that is what makes this section drag.

Item	How to ask it	What to watch
G1–G6 Confidence scales	Terms, comparing options, budgeting, cost of borrowing, repayment capacity, repayment planning	Self-assessment, 1 to 5, no N/A. Leave blank if they will not answer. Read each stem fully even though the scale repeats
G7.1 Separating Finances	Individual branch only	Frequency, not a yes/no
G8.1 Budgeting Practice	How often	Practice, not confidence — a confident respondent may still never budget
G9.1 Record-Keeping Practice	How often	Should be consistent with C16
G10.1 Repayment Planning	Before borrowing, did they identify the repayment source	
G11.1 Savings	Regularly, occasionally or no	No closes G11.2
G11.2 Savings Purpose	Select all that apply	Appears only for regularly or occasionally
G12 Digital Services	Six services, each Yes or No	Ask about the past 12 months
G12.2 Digital Difficulties	Select all that apply	
G13.1 Training Received	Past 12 months, select all	"None" closes G14 and G15
G14.1 Training Provider	Select all	
G15.1 Usefulness / G15.2 Applied it		
G16 Decision-Making	Who has the main say, per decision	Two versions — the household one for individuals, the governance one for organisations. Only the right one appears
G17 Overall Confidence	The closing scale	

Section H — Experience, assessment and suggestions

Mostly opinion. Let the respondent talk; record their words rather than paraphrasing into categories.

Item	How to ask it	What to watch
H1.1 Expectations	What they expected before the agreement	
H2.1 Expectations Met	Only where proceeds were released	Skip otherwise
H2.2 Reason		
H3.1 Most Important Benefit	Single most important, so far	
H4.1 Confidence Since Financing	Increased, unchanged, decreased	H4.2 asks why
H5.1 Challenges After Financing	Select all that apply	
H6.1 Overall Satisfaction		H6.2 asks why — this is one of the most useful free-text answers in the study
H7.1 Likelihood of Borrowing Again	If eligible and in need	H7.2 asks why
H8.1 Other Programmes Used	Another LANDBANK or government programme	Yes opens the comparison
H9.1 Most Significant Challenge	Open text, single most significant	Do not lead. Record their words
H10.1 Most Important Improvement	The one most important	Push gently for one, not a list
H11.1 Additional Support Needed	Aside from financing, select all	
H12.1 Additional Comments	<i>"May gusto pa po kayong sabihin sa ACPC?"</i>	Give them time. Silence is fine — do not fill it

Instrument B only — Sections D to H

Note the lettering: Instrument B's financial-capability block is **F1 to F17**, where Instrument A's is G1 to G17. Same questions, different letters, so the two instruments can be compared. Section G in B is perceptions, which Instrument A does not have at all.

Section D — Awareness and application experience

Item	How to ask it	What to watch
D1.1 Awareness →	<i>"Before this interview, had you heard of AGRISENSO Plus?"</i>	Ask before explaining anything about the programme. Explaining first contaminates the answer
D2.1 Source of Information	How they first heard	
D3 Understanding — scale 1 to 5	Explain the scale once	Someone who has never heard of it may still rate low rather than blank — both are acceptable
D4 Awareness of Features	Each feature, Yes / No / Not sure	"Not sure" is a real answer here
D5.1 Ever Attempted to Apply →		Yes opens D5.2. Must be consistent with A7
D5.2 What Happened →	Started, pending, withdrawn, declined, approved-not-executed	"Application declined" opens D6
D6.1 Told the Reason	Only after a declined application	Yes opens D6.2
D6.2 Reason Given	The reason they were told , not their theory	If they were not told, D6.1 is No and stop there
D7.1 Reason for Withdrawal	For withdrawn or incomplete applications	

Section E — Financing needs, sources and barriers

The analytical heart of Instrument B. Take care here even when time is tight.

Item	How to ask it	What to watch
E1.1 Current Need →	Do they currently need additional financing	"Not sure" is allowed and is not the same as No
E2.1 Purpose of Need	Select all that apply	Asked for Yes or Not sure
E3.1 Estimated Need	Exact peso amount first	Alternative to E3.2. Amount needed, not amount they expect to get
E3.2 Unable / Prefer not		
E4.1 Current Financing Sources	Past 12 months, select all	Read every option — informal sources such as traders, input suppliers and family are easy to under-report. "No external financing used" is a real answer
E5.1 Primary Source	The main one	
E6.1 Adequacy	Does current financing fully meet their needs	
E7.1 Reason for Not Availing	The main reason they have no AGRISENSO Plus loan	Central to the study. Do not accept a vague answer — probe once
E8.1 Barriers →	Read all twenty-one options. Select all	The longest select-all in either instrument. Feeds E9. "None" clears the rest
E9.1 Most Significant Barrier	Offers only what was ticked in E8	If it says answer E8 first, go back
E10.1 Perceived Ease of Access	Overall judgement	

Section F — Financial knowledge and capability

Worded to match Instrument A exactly so borrowers and non-borrowers can be compared. **Do not reword anything here.**

Item	How to ask it	What to watch
F1-F6 Confidence scales	Terms, comparing options, budgeting, cost of borrowing, repayment capacity, repayment planning	Explain the 1 to 5 scale once at F1. No N/A
F7.1 Separating Finances	Individual branch only	
F8.1 Budgeting / F9.1 Record-Keeping	How often	Practice, not confidence
F10.1 Repayment Planning	Ask only of respondents with borrowing experience	Skip for someone who has never borrowed
F11.1 Savings	Regularly, occasionally or no	No closes F11.2
F11.2 Savings Purpose	Select all	
F12 Digital Services	Six services, past 12 months	
F12.2 Difficulties	Select all	
F13.1 Training Received	Past 12 months	"None" closes F14 and F15
F14.1 Provider / F15.1 Usefulness / F15.2 Applied it		
F16 Decision-Making	Who has the main say	Household version for individuals, governance version for organisations
F17 Overall Confidence	Closing scale	

Section G — Perceptions

Instrument A has no equivalent. These are opinions about the financing system, not about the respondent's own case.

Item	How to ask it	What to watch
G1.1 Potential Benefit	The most important benefit affordable formal financing would bring	Hypothetical. Do not let it drift into what they already have

Item	How to ask it	What to watch
G2.1 Fairness of Access	Do qualified people in their area generally get a fair opportunity	About the community, not themselves
G2.2 Why		Valuable free text — give it time
G3.1 Trust in Government Programmes	Level of confidence	Ask neutrally. Do not defend the programme if the answer is negative
G3.2 Why		
G4.1 Borrowers versus Non-Borrowers	What they observe distinguishes those who get financing from those who do not	The single most insightful question in Instrument B. Let them think before answering

Section H — Future intentions and suggestions

Item	How to ask it	What to watch
H1.1 Future Interest	If in need and eligible, how likely to apply	H1.2 asks why
H2.1 What Would Encourage Application	Select all	
H3.1 Preferred Information Channels	Select all	Directly useful to programme design — do not rush it
H4.1 Most Significant Challenge	Open text, single most significant	Do not lead
H5.1 Most Important Improvement	The one most important	H5.2 asks why
H6.1 Additional Support Needed	Aside from financing, select all	
H7.1 Additional Comments	<i>"May gusto pa po kayong sabihin sa ACPC?"</i>	Give them time. Do not fill the silence

Closing items — both instruments

The last three sections are yours, not the respondent's. Complete them **after** the interview ends, while it is still fresh.

Item	How to complete it
Enumerator Final Review	A nine-point checklist. Tick only what you actually did. It is a prompt to catch your own omissions before you submit, not a formality
Interview Outcome	How the interview really ended. Completed only if you reached the last section and asked every applicable question. "Callback required" or "Respondent unavailable" opens the callback date, time and notes
Supervisor Verification auto	Opens at <i>Pending</i> . Leave it there — the supervisor changes it
Data Verification Status auto	Opens at <i>Pending verification</i> . Leave it
Back-check Status auto	Opens at <i>Not yet selected</i> . Leave it
Enumerator Observation	Objective conditions only: interruptions, others present, recall or comprehension difficulty, language problems. Tick "No significant issue" if nothing occurred
Brief Factual Notes	Facts, not impressions. " <i>Respondent consulted loan documents for Section E</i> " is useful. " <i>Seemed evasive</i> " is not
End Time auto	Recorded when you reach the closing section

Read the closing statement before you put the device away. Thank the respondent, confirm what happens next, and answer any question they have about the study.

Then, before you leave the barangay

1. Press **Submit Response**.
2. If you have signal, check that a response number appeared.
3. If not, the record is queued — press **Sync Pending Now** as soon as you have signal, and before the end of the day.
4. Report any stopped, refused or callback case to your supervisor the same day.
